

Wasim Akram R

FRONTEND DEVELOPER

About

Hello! I'm Wasim Akram R, a passionate and dedicated **frontend developer** excited to build engaging, user-friendly websites and web applications. I'm actively seeking an opportunity to kick-start my career as a **frontend developer**. I'm eager to bring my skills and enthusiasm to a collaborative team, where I can learn from experienced developers and contribute to meaningful projects.

Projects

TWITTER CLONE | *Mongodb, Express, React, Node* | [Link](#)

- Implemented secure user authentication with **JWT** for login, sign-up, and session management. Ensured role-based access to specific functionalities like post deletion and profile editing.
- Utilized **React Query** for efficient data fetching, caching, and synchronization. Integrated a real-time notification system to alert users about interactions like likes and comments.
- Enabled users to create, edit, and delete posts. Integrated **Cloudinary** for seamless image uploads and profile management, including cover and profile images.

CHATIFY- REALTIME CHAT APP | *Mongodb, Express, React, Node* | [Link](#)

- Utilized **Zustand** for efficient global state management across the app. Implemented error handling on both the client and server to ensure smooth user experience and data integrity.
